Dear Ms. Searcy:

On behalf of the Board of Regents, State of Florida, Acting for and on behalf of the University of Florida (University), we are filing herewith, in triplicate on FCC Form 340, its application for a new noncommercial educational FM station on the frequency 90.9 MHz (Channel 215A) at Crystal River, Florida. University is the licensee of noncommercial educational FM Station WUFT-FM, Gainesville, Florida, and proposes to operate the Crystal River station primarily as a satellite of Station WUFT-FM.

The application also includes a statement pursuant to Section 73.1125(a)(4) of the Commission's rules demonstrating that good cause exists for operation of the proposed Crystal River station with its main studio to be located at the current studio facilities of the University's Station WUFT-FM at Gainesville, Florida.

No fee is required for this filing inasmuch as the applicant is a noncommercial educational broadcast licensee and will operate the proposed facility on a noncommercial educational basis. See Section 1.1112(c) of the rules.

An application for funds is being filed with NTIA in connection with this application. A copy of that application is being filed with the Commission simultaneously herewith.

Please address any questions concerning this application to this office.

Respectfully submitted,

SCHWARTZ, WOODS & MILLER

INSTRUCTIONS

Applicants seeking authority to construct a new commercial, noncommercial or international broadcast station, applicants seeking authority to obtain assignment of the construction permit or license of such a station, and applicants seeking authority to acquire control of an entity holding such construction permit or license are required to afford equal employment opportunity to all qualified persons and to refrain from discrimination in employment and related benefits on the basis of race, color, religion, national origin or sex. See Section 73.2080 of the Commission's Rules. Pursuant to these requirements, an applicant who proposes to employ five or more full-time employees must establish a program designed to assure equal employment opportunity for women and minority groups (that is, Blacks not of Hispanic origin, Asians or Pacific Islanders, American Indians or Alaskan Natives and Hispanics). This is submitted to the Commission as the Model EEO Program. If minority group representation in the available labor force is less than five percent (in the aggregate), a program for minority group members is not required. In such cases, a statement so indicating must be set forth in the EEO model program. However, a program must be filed for women since they comprise a significant percentage of virtually all area labor forces. If an applicant proposes to employ fewer than five full-time employees, no EEO program for women or minorities need be filed.

Guidelines for a Model EEO Program and a Model EEO Program are attached.

NOTE: Check appropriate box, sign the certification below and return to FCC:

☒ Station will employ fewer than 5 full-time employees; therefore no written program is being submitted.

☐ Station will employ 5 or more full-time employees. Our Model EEO Program is attached. (You must complete all sections of this form.)

I certify that the statements made herein are true, complete, and correct to the best of my knowledge and belief, and are made in good faith.

Signed and dated this 21st day of December, 1992

Signed Richard A. Johnson

Title General Manager

WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND/OR IMPRISONMENT (U.S. CODE, TITLE 18, SECTION 1001), AND/OR REVOCATION OF ANY STATION LICENSE OR CONSTRUCTION PERMIT (U.S. CODE, TITLE 47, SECTION 312(a)(1)), AND/OR FORFEITURE (U.S. CODE, TITLE 47, SECTION 503).

GUIDELINES TO THE MODEL EEO PROGRAM

The model EEO program adopted by the Commission for construction permit applicants, assignees and transferees contains five sections designed to assist the applicant in establishing an effective EEO program for its station. The specific elements which should be addressed are as follows:

I. GENERAL POLICY

The first section of the program should contain a statement by the applicant that it will afford equal employment opportunity in all personnel actions without regard to race, color, religion, national origin or sex, and that it has adopted an EEO program which is designed to fully utilize the skills of qualified minorities and women in the relevant available labor force.

II. RESPONSIBILITY FOR IMPLEMENTATION

This section calls for the name (if known) and title of the official who will be designated by the applicant to have responsibility for implementing the station's program.

III. POLICY DISSEMINATION

The purpose of this section is to disclose the manner in which the station's EEO policy will be communicated to employees and prospective employees. The applicant's program should indicate whether it: (a) intends to utilize an employment application form which contains a notice informing job applicants that discrimination is prohibited and that persons who believe that they have been discriminated against may notify appropriate governmental agencies; (b) will post a notice which informs job applicants and employees that the applicant is an equal opportunity employer and that they may notify appropriate governmental authorities if they believe that they have been discriminated against; and (c) will seek the cooperation of labor unions, if represented at the station, in the implementation of its EEO program and in the inclusion of nondiscrimination provisions in union contracts. The applicant should also set forth any other methods it proposes to utilize in conveying its EEO policy (e.g., orientation materials, on-air announcements, station newsletter) to employees and prospective employees.

IV. RECRUITMENT

The applicant should specify the recruitment sources and other techniques it proposes to use to attract qualified minority and female job applicants. Not all of the categories of recruitment sources need be utilized. The purpose of the listing is to assist the applicant in developing specialized referral sources to establish a pool of qualified minorities and women who can be contacted as job opportunities occur. Sources which subsequently prove to be nonproductive should not be relied on and new sources should be sought.

V. TRAINING

Training programs are not mandatory. Each applicant is expected to decide, depending upon its own individual situation, whether a training program is feasible and would assist in its effort to increase the available pool of qualified minority and female applicants. Additionally, the applicant may set forth any other assistance it proposes to give to students, schools or colleges which is designed to be of benefit to minorities and women interested in entering the broadcasting field. The beneficiary of such assistance should be listed, as well as the form of assistance, such as contributions to scholarships, participation in work study programs, and the like.

MODEL EQUAL EMPLOYMENT OPPORTUNITY PROGRAM

I. GENERAL POLICY

It will be our policy to provide employment opportunity to all qualified individuals without regard to their race, color, religion, national origin or sex in all personnel actions including recruitment, evaluation, selection, promotion, compensation, training and termination.

It will also be our policy to promote the realization of equal employment opportunity through a positive, continuing program of specific practices designed to ensure the full realization of equal employment opportunity without regard to race, color, religion, national origin or sex.

To make this policy effective, and to ensure conformance with the Rules and Regulations of the Federal Communications Commission, we have adopted an Equal Employment Opportunity Program which includes the following elements:

II. RESPONSIBILITY FOR IMPLEMENTATION

(Name/Title) will be responsible for the administration and implementation of our Equal Employment Opportunity Program. It will also be the responsibility of all persons making employment decisions with respect to the recruitment, evaluation, selection, promotion, compensation, training and termination of employees to ensure that our policy and program is adhered to and that no person is discriminated against in employment because of race, color, religion, national origin or sex.

III. POLICY DISSEMINATION

To assure that all members of the staff are cognizant of our equal employment opportunity policy and their individual responsibilities in carrying out this policy, the following communication efforts will be made:

Exhibit 7

NATURE AND EDUCATIONAL PURPOSES

WUFT-FM is an educational, non-commercial public radio station licensed to the State of Florida Board of Regents acting on behalf of the University of Florida. WUFT-FM serves two basic missions. It is the sole source for quality programming of an alternative nature. This programming consists of National Public Radio news, national and local public affairs programming, jazz, folk and classical music, radio drama and new age music. WUFT-FM provides a 24 hour a day, 365 day a week broadcast service.

Our second mission comes about because of our relationship with the University of Florida College of Journalism and Communications. This professionally staffed station provides J&C students with the opportunity to gain experience as broadcasters. One hundred students a semester work with professionals in our news, programming, operations and traffic offices to develop marketplace skills for future employment.

The success of this combined mission was graphically illustrated this year when we won nine Associated Press Awards for stories that our students and staff produced for broadcast in our local news programs. We also won two regional awards for programs that were produced as a result of our community outreach. To top that off, we received the second highest Cume Share in the country, according to Arbitron, for the Fall of 1991.

We have been on the air since 1982 and have been rated the top public radio station in the country for Metro Cume share five times in our history. We have produced news and cultural programming that has been syndicated by National Public Radio, American Public Radio and Florida Public Radio and have produced a large number of graduates that have gone on to successful careers in broadcasting.

These are our two missions and we have managed to successfully combine them throughout our ten year existence. We will continue to provide our listening community with the best public radio programming available and we will continue to provide our students with the best possible professional training experience in the country.

**ADVANCEMENT AND EXTENSION OF
AN EDUCATIONAL PROGRAM**

The new station will be used to correct a major reception problem that has occurred with the sign-on of a new 50,000 watt religious station in Tarpon Springs and will extend WUFT-FM's signal to currently unserved Citrus County (and portions of Hernando and Sumter Counties).

Attached as Exhibit 8A is a copy of our CPB Expansion Grant Proposal and the Letter of Award from CPB concerning the Planning Grant, which is the genesis for this application for a new public FM station at Crystal River, Florida.

Before the sign-on of Station WCFE-FM on 88.9 MHz, we had no problems with our listeners being able to receive the WUFT-FM 89.1 MHz signal. Now they have great problems and are unable to receive our signal. Copies of illustrative complaint letters are included in the attached CPB Expansion Grant Proposal (Exhibit C).

That Proposal also includes maps showing public radio coverage in Florida (Exhibit A). These maps demonstrate that Citrus County is the last significantly populated area that is unable to tune in a CPB-qualified public radio signal. Our consulting engineers have determined that there is only one frequency left that will accommodate a public radio station and that frequency is Channel 215.

We are proposing to operate a 2,500 watt station that will primarily simulcast the signal that we originate in Gainesville. We have worked out a tentative agreement for lease of a tower site. For further information concerning the program schedule and additional local origination capabilities, see Exhibit 9.
